**MAD/LAB/02** -Create “Hello World” application. That will display “Hello World” in the middle of the screen in the cyan color with background image and change the app icon.

**Step-1** open android studio.

If android studio start from welcome screen of android studio then

Click on **New Project**.

Select **empty Activity** form right side panel and click on next button.

**Step-2** Write the Application name as **MADLAB02**

Select Language for Development is **Java**

Select Minimum SDK, scroll upside and choose android version **4.1 JellyBean**.

Click on **next** Button

**Step-3** Your Application show two types of file in that select **activity\_main.xml**

Right click on design page area and select **GOTO XML**.

**Change the page layout as relative layout.**

```
<?xml version="1.0" encoding="utf-8"?>
<RelativeLayout xmlns:android="http://schemas.android.com/apk/res/android"
    xmlns:app="http://schemas.android.com/apk/res-auto"
    xmlns:tools="http://schemas.android.com/tools"
    android:layout_width="match_parent"
    android:layout_height="match_parent"
    tools:context=".MADLAB01">

</RelativeLayout>
```

**Step-4** Use **Textview** Control to show the text on screen.

Inside relative layout tag add **textview tag control**.

```
<TextView  
    android:layout_width="match_parent"  
    android:layout_height="wrap_content"  
    android:layout_centerInParent="true"  
    android:gravity="center"  
    android:text="Hello World"  
    android:textSize="34sp" />
```

**Step-5** Change the background of page using image file

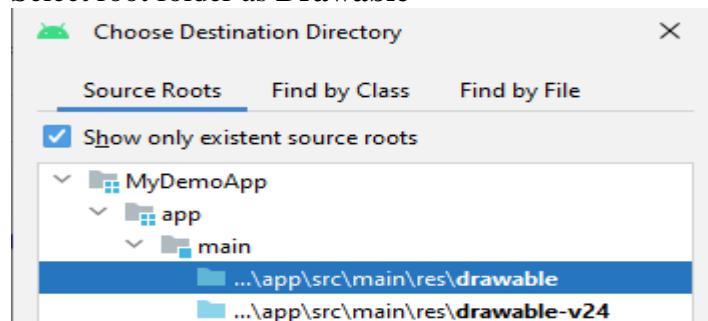

First download an image wallpaper from **Google** and give name as **imgwall.jpg**.

Copy the **downloaded image** file.

**Step-6** Goto android studio expand res folder => select **drawable** folder.

Right click on **drawable** folder and paste image file.

Select root folder as **Drawable**

Click on ok button

Do not change image name and click ok button.

**Step-7** Goto **activity\_main.xml**

And add one line of code in **relative layout opening tag**.

```
        android:background="@drawable/ imgwall"
```

**Step-8** Change the app icon of your application using image file

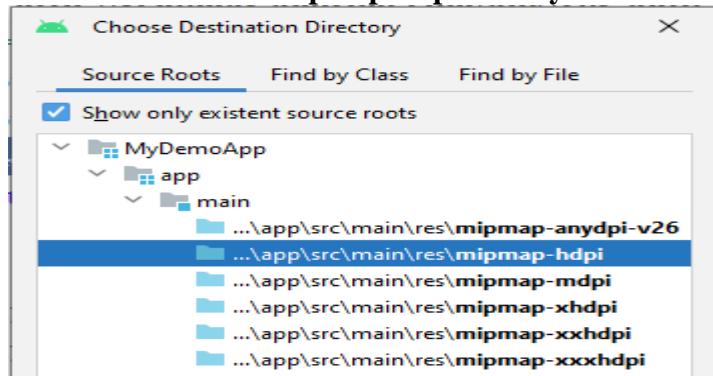

First download an small size png icon file from **Google** and give name as **app\_icon.jpg**.

Copy the **downloaded image** file.

**Step-9** Goto android studio expand res folder => select **mipmap** folder.

Right click on **mipmap** folder and paste image file.

## Select root folder as **mipmap-hdpi** density

Click on ok button

Do not change image name and click ok button.

Step-10 **Goto** android project structure.

Expand or double click on **Manifest Folder**.

You can see the **AndroidManifest.xml**.

Inside AndroidManifest.xml find the **application tag**.

Replace the **icon** attribute by following code.

**android:icon="@mipmap/app\_icon"**

Replace the **roundIcon** attribute by following code.

**android:roundIcon="@mipmap/app\_icon"**

**FINISH**
