Outcome of the Program

Diagnostic biology is training program designed by the department of biotechnology for the B. sc. BT SY student, this program had been conducted for five days. it was started from 12 to 16 January 2015. This program was designed to provide the knowledge as well as free hand in techniques of diagnosis regarding diagnostics studies such as the blood profiling, studies on hemoglobin estimation , blood sugar profiling, the active participation of students was at appreciable level.
