Advanced Uses Internet & Android Device Security
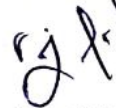

Outcome of the Program

1. Able to apply the knowledge gained during the course of the program from advanced usage of internet and android device security course in particular to identify, formulate and solve real life complex web problems faced in industries and/or during research work with due consideration for the internet identity and personal smartphone data security, in the context of societal situations.
2. This course provide knowledge of securing our mail account, be safe at internet, preventing our-self from being hacked as well as kept secure our smartphone from hackers.
3. Students able to search web very effectively and manage their personal social networking accounts with safety.
4. Able to prevent data theft, prevent basic cyber-attack.
5. Able to use YouTube as learning hub but not just entertaining platform.
6. Able to use such information at their company after getting job to make data secure.
7. Can become cyber ethical hacker in further guidance.
